Five Thousand Years of Urban Media
Shannon Mattern

Please join us for a conversation with Dr. Shannon Mattern (The New School) about her recent work and Bill Morrison's film *Dawson City: Frozen Time*. Dr. Mattern will be a guest visitor (via Skype) in ENG 818 "Substrates of Cinema" for a conversation about Morrison's documentary in the context of her own recent work. In addition to the film, the seminar will discuss portions of Mattern's new book *Code+Clay, Data+Dirt: 5000 Years of Urban Media* (University of Minnesota Press, 2018), and her articles "The Big Data of Ice, Rocks, Soils, and Sediments," and "Extract and Preserve." For copies of the readings, please contact Justus Nieland (nieland@msu.edu).

Sponsored by the Film Studies Program and the Digital Humanities Program of the College of Arts & Letters.
